# Report of the Board of Administrators OF THE CHARITY HOSPITAL,

---

NEW ORLEANS, LA., January 1, 1874.

*To the Honorable the Senate and House of Representatives of the State of Louisiana:*

The Board of Administrators of the Charity Hospital have the honor to lay before you a statement of the affairs of that institution for the year 1873.

The report of the House Surgeon exhibits a statement of the number of patients admitted and discharged, the number of deaths during the year, and the number of patients remaining under treatment December 31st, 1873. This report likewise embraces a diagnosis of all the cases under treatment during the year, the number of births, and the number of destitute persons admitted and discharged, all of which is herewith respectfully submitted for your information.

In addition to his report, there is also appended the statement of the Clerk, showing the number of admissions in each month, and the countries of nativity of the patients admitted.

The Treasurer's report, which is very complete, will show your honorable body the necessity of making an appropriation equivalent to \$194,253.14 in cash, in order to pay the past due obligations of the Hospital, and provide the means of carrying on the institution during the current year.

From estimates furnished us by Mr. Frederick Wing, master builder, Mr. David McCan, and other competent mechanics, it will appear that an appropriation of \$25,000, equivalent to cash, will be necessary to make urgent and unavoidable repairs to the exterior and interior of the buildings: all of which, with the exception of one wing, are truly in a most dilapidated condition.

From the verbal report of Drs. P. C. Boyer and C. B. White, Visiting

Committee of this Board, and Dr. Andrew W. Smyth, House Surgeon of the Hospital, we are warranted to speak highly of the services rendered by the visiting physicians and surgeons who served during last year. Their names are attached to this report.

The resident students, twelve in number, seem to have—with one or two exceptions—served their superiors and the institution in such a manner as to justify the hope that they appreciate the bounty of the State at the expense of which they are boarded and lodged, and afforded the facilities of becoming useful members of the medical profession. To the House Surgeon, Doctor Smyth, and his Assistant, Dr. Lewis, the praise is due which belongs to good, faithful and efficient officers: while the Sisters of Charity, twenty-five in number, have continued, by their tenderness and ceaseless devotion to the poor inmates prostrated by disease, to merit the gratitude and admiration of the world.

In conclusion, in order to show you the real wants of this noble and charitable institution, and the difficulties which have beset and continue to beset the administration of its affairs, we can do no better than to reprint and renewedly urge upon you the perusal and consideration of the following extract from the valuable report made by the Board of Administrators to your honorable body last year, viz:

The administration regret to say that the financial condition of the institution has become embarrassed by a heavy debt which has been contracted entirely during the past three years. On the first of January, 1868, the Treasurer's account with the hospital shows a balance on hand of thirty-seven thousand two hundred and thirty-two dollars and sixty-one cents. No appropriation was required or made by the Legislature for the coming year, and on the first of January, 1869, a balance remained with the treasurer of twelve thousand seven hundred and sixty-nine dollars and eleven cents. The Legislature of this year transferred the tax on foreign passengers, which had brought the hospital a revenue for twenty years, to a bureau of emigration; and the tax on lotteries, which helped very materially to sustain the institution, was at the same time transferred to the school fund.

The appropriations made in return for the cash revenues transferred were quite liberal, but the State warrants in which they were received kept continually depreciating in value. In 1871, the loss by discount on State warrants (sold at a little over fifty cents on the dollar) amounted to seventy-nine thousand six hundred and twenty-eight dollars and twenty-five cents—a sum which, in cash, would have paid the whole expenses for the year. Of the appropriation made at the last meeting of the General Assembly, amounting to one hundred and fifty-five thousand dollars, ninety-seven

thousand five hundred are still on hand. They are worth at the present value of warrants about forty thousand dollars, and the debts of the institution, as shown by the treasurer's report, amount to one hundred and fifteen thousand eight hundred and thirty dollars and forty cents, leaving a balance of debt due amounting to sixty-five thousand five hundred and thirty-two dollars and thirty-six cents on the first of January of this year. In the year 1843, a nearly equal amount of indebtedness was due by the institution, and the Board of Administrators at that time, in their annual report to the General Assembly, (the fifteenth Legislature) made the following appeal: "With this valuable charity on our hands we confess to your honorable body that we begin the year 1843 with most painful forebodings. During the last thirteen years it has received into its wards for comfort and relief, when aid could not be expected elsewhere, more than fifty-nine thousand six hundred and twenty-one of our fellow-creatures. These demands are annually increasing with the population of our great commercial mart. *We cannot close its doors; the sick, destitute, and distressed must have relief.* We dare not, if we were even so disposed, shut the door of charity against them. Thank God, there is no disposition in this community to do so. Yet, with the most economical administration of its finances during the past year within the recollection of the Board, we find ourselves at its termination oppressed with a load of debt amounting to sixty thousand nine hundred and one dollars and thirty-two cents."

Five years after this time, in 1850, the number of patients admitted into the hospital in this year was eighteen thousand four hundred and twenty-three, and to the present time, a period of thirty years, there have been admitted, treated and cared for no less than two hundred and ninety-five thousand seven hundred and eighty-six.

To relieve the present financial embarrassment of the institution, pay off the indebtedness, and meet the expenses of the coming year, a very large appropriation in State warrants will be necessary.

An appropriation equivalent to one hundred and fifty thousand dollars cash is required, and it is very evident that estimating warrants at a greater value than can be realized, not only increases the debt of the institution, but adds to the cost of every article furnished upon credit.

It has been the endeavor of every administration of the hospital to secure through appropriate legislation a permanent revenue for its support and to avoid, if possible, the necessity of having to call upon the Legislature for annual appropriations. The administrators, in 1859, in their annual report, say: "The annual diminution of its revenues, derivable from the sources provided by law, renders the conclusion inevitable that the Charity Hospital will become a constant and heavy burden on the State treasury, unless speedy and effectual measures be taken to create for it a permanent and reliable income by taxation. It is suggested that the tax on theaters of five hundred dollars be reinstated and the benefits provided by the act of 1857 be dispensed with. It is also suggested that fines imposed by the First District Court of New Orleans and the recorders of the city, be paid into the treasury of the hospital, especially since the State has assumed the payment of the expenses of the prosecution of criminals in the respective parishes."

The wisdom of these efforts on the part of the administration of the hospital is very apparent at the present time, when State securities are so depreciated. Contracts for the necessary supplies required for the hospital can not be made on favorable terms subject to payment derived from future legislation; it is safe to say that at least twenty thousand dollars per annum is lost to the State from the present credit system.

The tax on foreign emigration in the year 1854 produced a revenue of seventy-one thousand dollars; in 1855, forty-one thousand; in 1856, twenty-eight thousand (continually decreasing), and in 1868, three thousand eight hundred dollars, so that at the present time this tax brings but a very small revenue. The tax on lotteries in the year 1868 produced a revenue to the hospital of thirty-three thousand and thirty-five dollars. We would respectfully suggest that this tax be again restored. It must not be forgotten that it was solely in consideration of this revenue to the hospital that the Legislature of 1867 granted a charter to a lottery company at all.

By restoring to the hospital the revenues taken from it three years ago, the appropriation required will not be in excess of that of former years, and will not be considered burdensome to the State.

As in former years, we again urge upon your honorable body the establishment of an alms-house for "indigent and vagrant persons." We copy from the report of 1853, twenty years ago: "As yet no effort has been made by either city or State Government to take cognizance of this class, by making provision for them in asylums or alms-houses, and bringing them under such subjection as will make their support the least burdensome to society. Beyond what has been done by the associated benevolence and enterprise of some of our citizens, our growing commercial capital has no one public edifice consecrated to the relief, support, training and moral care of our adult poor population."

Aside from the duty of giving you a plain and straightforward account of the affairs of the Hospital, which we are called to supervise and administer on, we cannot omit to mention, with the most profound regret, the loss which this institution has sustained by the death of Dr. James Jones, who died October 10th, 1873. Like the late Warren Stone, whose death it was our painful duty to report last year, he rendered this institution for many years invaluable and disinterested services; and many young and rising men in the medical profession are indebted to him for his valuable teachings.

We also attach to this report a letter from Mr. Carleton Hunt, executor of the late Mrs. Cora Livingston Barton, informing this Board by the last will and testament of that lady, and upon the decease of Julia Barton Hunt and himself, the Charity Hospital will become entitled to receive a legacy of six thousand dollars. All of which is respectfully submitted.

For the Board,

H. BONZANO, *Vice-President.*

NEW ORLEANS, December 4, 1873.

*To the Honorable the Board of Administrators of the Charity Hospital:*

GENTLEMEN—As one of the Executors of the late Mrs. Cora Livingston Barton, I have the honor to communicate to your Honorable body the enclosed copy of Article Fourth, of the last will and testament of that lady, whereunder upon the decease of my sister, Julia Barton Hunt, and myself, the Charity Hospital will become entitled to receive a legacy of six thousand dollars.

My co-executors, Maturin Livingston Delafield, of Fieldston, Westchester county, New York, (Riverdale Post Office), Arthur Leary, 73 William street, New York city, C. C. Pinckney, 48 Pine street, New York city, and Louise Livingston Hunt, of Montgomery Place, Barrytown Post Office, Dutchess county, New York, are all persons of the highest character and standing, in whose hands the interests of the Hospital are secure. Upon application to them, or the survivor of them, after the decease of Julia Barton Hunt and myself, it is as certain as the nature of such business will allow, that the legacy will be promptly paid.

Mrs. Barton, the generous testatrix, was the only daughter of the late Edward Livingston, whose fame as a patriot and philanthropist is so closely identified with Louisiana. Although the greater part of her life was spent in the State of New York, she was always informed of the great charities of which the Hospital has been the unfailing source, and desired in the future to contribute to them.

The deep feeling of interest in the Hospital, which I inherit, and my reverence and love for the character of Mrs. Barton, make this communication as her testamentary executor, most grateful to me, and I respectfully request that your honorable body will, under the circumstances, direct her name to be engraven, with that of other benefactors, upon the marble tablet erected in the building in the Hospital.

I have the honor to remain,

Your obedient servant,

CARLETON HUNT.

This testament was framed by Wm. Allen Butler, Esq., of the firm of Barney, Butler & Parsons, No. 111 Broadway, New York City.

Extract from the Last Will and Testament of the late Mrs Cora Livingston Barton.

---

"FOURTH.—I give, devise and bequeath unto my Executors hereinbefore mentioned, or such of them as shall qualify under this will, and to the survivors and survivor of them all my household property and estate, situated on the westerly side of Broadway and City of New York, and known by the street number, seven hundred and fifty-one Broadway, in trust to and to hold the same, and in their discretion to rent the lease at its termination, or to sell the said property at public or private sale, and to convert it into money, in which case the proceeds of sale shall be invested by my said Executors on bond and mortgage and kept so invested, and to receive the rents, income and profits of said household property so long as it remains unsold, and the interest and income of said proceeds of sale to be invested, and to divide such rents or interest, as the case may be, as fast as received, into three equal parts or shares, and to pay of such shares of rent or interest to Louise Livingston Hunt, and another of such shares to Carleton Hunt, and the remaining share to Julia Barton Hunt: it being my intention that the absolute power of alienation of such household property, or the absolute ownership of said proceeds of sale thereof shall not be suspended for a longer period than during the continuance, or until the termination of the lives of the said two last mentioned persons, the survivor of whom is to receive during his or her life the whole amount of the rents or interests hereinbefore mentioned; and upon the termination of both said lives, I direct my Executors to sell the said household property, if it shall not have been done before, and convert it into money, and to pay and dispose of the proceeds of the sale thereof (or if it shall have been previously sold) to pay and dispose of the principal of the fund derived from such sale in their hands in the manner following:

To St. Luke's Hospital, a corporation created in the year 1850, under the laws of the State of New York, or to the treasurer thereof for the time being, for the purpose of endowing free beds, to be known as the L. L. Beds, in memory of my mother, Louise Livingston, the sum of twenty thousand dollars.

To the Hospital known as the Charity Hospital of the City of New Orleans, in the State of Louisiana, the sum of six thousand dollars.

To the Methodist Episcopal Church at Rhinebeck, Dutchess county, New York, of which my mother was a member, to be invested by the trus-

tees thereof, and the income thereof to be applied to keep in good repair said church, and the extension thereof, built over the vaults in which are deposited the remains of my mother and of my husband, and also to keep in good order the grounds around said church; and after these purposes shall have been accomplished, the sum of two hundred dollars to be added yearly to the salary of the Minister for the time being of said church, and the surplus to be devoted to such religious and benevolent purposes as shall be agreed upon by the trustees and presiding chair for the time being of said church, the sum of ten thousand dollars,

To the Children and Society incorporated in the year 1855, under the laws of the State of New York, the sum of seven thousand dollars, to be and used for the purposes of said Society.

To the religious corporation known as the Rector, Church Wardens and Vestrymen of St. George Church, of the City of New York, to be applied by them to such religious purposes as they may deem best, the sum of eight thousand dollars.

If the proceeds of sale of such household property shall prove to be larger than the amount of all the bequests given in this article of my will, all the said several bequests shall be rateably increased so as to preserve the same proportion to the aggregate amount, and so in case the said proceeds of sale shall prove smaller than the amount of all said bequests, the same bequests shall be rateably diminished, and paid in the proportion which they shall severally bear to the aggregate amount of the legacies as specified in this article.

## ESTIMATED COST OF REPAIRS.

NEW ORLEANS, January 1, 1874.

*To the President and Administrators of the Charity Hospital:*

GENTLEMEN—At your request I have examined the various buildings under your charge, and present the following reports:

The entrance building on Common street, need the cementing repaired and colored; the balcony's floors renewed and outside of openings; iron verandah; balcony floors, etc. painted.

Estimated cost of same, - - - - - \$525 00

The main building requires a new floor, joist, etc., in Drug-gist's apartments. New treads, etc., to all the stairs. The rear galleries of second and third stories renewed. The rear cornice raised and repaired. All the exterior openings repaired and painted on outside. All exterior brick walls, galleries, cisterns, etc., well painted.

Estimated cost of same, - - - - - 6200 00

Rear Lying-in-Hospital and Dead House—painting openings, coloring outside walls, kalsomining, etc. - - - 450 00

The building in rear of main Hospital, occupied by the Sisters of Charity, need the galleries and ends renewed and repaired. Ground floors repaired; outside of openings, blinds and galleries painted.

Estimated cost of same, - - - - - 4300 00

Employees' Department require new galleries and floors, and painting galleries and outside of openings.

Estimated cost of same, - - - - - 850 00

The above estimates based upon current funds of the United States.

Very Respectfully,

FREDERICK WING, *Builder.*

Additional repairs required in the interior of the buildings; new tanks, and boiling kettles for the kitchen; steam machinery; washhouse; drying rooms; bathing apparatus; water, steam and gas pipes, etc., estimated by Mr. McCan and others to cost \$12,675.

## Treasurer's Report.

*Charity Hospital, New Orleans, La.,* }  
JANUARY 1ST, 1874. }

*To the Board of Administrators of the Charity Hospital:*

I have the honor to present to your Honorable body a full and complete Statement of Receipts and Expenditures of the Hospital for the year ending December 31, 1873.

By reference to the "Report of Expenses for the Year," page 22, it will be seen that the amount \$94,253 14 against \$112,356 64 for the year previous is a decrease in expenses of \$18,103 50. Deducting the amount expended for *extra-ordinary* repairs on the hospital during the year makes the showing of \$26,014 92 decrease in expenses as compared with the year 1872.

After a careful compilation of the accompanying tables, and a close examination and comparison of the annual reports of other similar institutions throughout the country, I may be permitted to note the fact that the diet, wines, etc., furnished the hospital during the year are inferior in quality to what the sick really require and ought to have; they are by no means equal to those furnished other institutions of the kind. The total cost of maintenance of each patient in the Cincinnati Hospital, where the principal articles of diet required are much cheaper than in New Orleans, is about ninety-one cents per day. The amount expended in this hospital for each patient per day for the past year was forty-eight cents, including all expenses; a difference of fifty per cent expended on the inmates of the Cincinnati Hospital over those taken care of in the Charity Hospital at New Orleans.

Very Respectfully,

J. D. LICHTENBERGER,

*Treasurer.*

# TABLE

SHOWING THE

Name, Age, Nativity, Occupation, Date and Cause of Death

OF

PATIENTS WHO HAVE DIED IN CHARITY HOSPITAL,

*From January 1st to December 31st, 1873.*

---

## TABLE

*Showing the Name, Age, Nativity, Occupation, Date and Cause of Death, of Patients who have died in Charity Hospital, from January 1st to December 31st, 1873.*

NAMES.	NATIVITY.	OCCUPATION.	AGE.	CAUSE OF DEATH.	DATE OF DEATH.
John Young.....	Virginia.....	Laborer.....	27	Chronic Dysentery.....	January 1, 1873.
Patrick DeLacey.....	Ireland.....	Laborer.....	48	Bronchitis.....	" 1, "
Thomas Thereney.....	Ireland.....	Laborer.....	85	Apoplexy.....	" 1, "
Louis G. Luckett.....	Louisiana.....	Plasterer.....	37	Cirrhosis.....	" 1, "
Charles Wallace.....	Massachusetts.....	Ship Carpenter.....	56	Malarial Fever.....	" 1, "
Michael McCaffrey.....	Ireland.....	Painter.....	32	Pneumonia.....	" 2, "
Morriss Lannigan.....	Ireland.....	Laborer.....	36	Pneumonia.....	" 2, "
John Tracey.....	Ireland.....	Laborer.....	38	Phthisis Pulmonalis.....	" 2, "
Mathias Flanagan.....	Ireland.....	Telegrapher.....	28	Pneumonia.....	" 2, "
James Brown.....	Mississippi.....	Boatman.....	22	Pneumonia.....	" 3, "
Edward Doclar.....	Louisiana.....	Locksmith.....	31	Delirium Tremens.....	" 3, "
Catharine Neuffer.....	Louisiana.....	.....	32	Carditis.....	" 3, "
Josephine Renoult.....	France.....	.....	52	Phthisis Pulmonalis.....	" 4, "
Zenon Villerée.....	Louisiana.....	Laborer.....	85	Malarial Fever.....	" 4, "
James Kelly.....	Ireland.....	Laborer.....	34	Malarial Fever.....	" 4, "
Amos Applegate.....	New Jersey.....	Carpenter.....	55	General Paralysis.....	" 5, "
Nicholas Copel.....	Italy.....	Laborer.....	45	Pneumonia.....	" 5, "
Joseph Austin.....	Louisiana.....	Laborer.....	26	Phthisis Pulmonalis.....	" 6, "
Dominique Larrando.....	France.....	Baker.....	40	Tuberculosis.....	" 7, "
Aaron Horn.....	Maryland.....	Laborer.....	22	Phthisis Pulmonalis.....	" 7, "
Joseph Schmidt.....	Germany.....	Laborer.....	44	Phthisis Pulmonalis.....	" 7, "
Matilda Collins.....	South Carolina.....	.....	18	Remittent Fever.....	" 8, "
Charles Wilson.....	Nova Scotia.....	Laborer.....	29	Dysentery.....	" 8, "
William Scott.....	South Carolina.....	Laborer.....	23	Pneumonia.....	" 8, "

Charles Dolan.....	Ireland.....	Laborer.....	43	Cirrhosis of Liver.....	January 9, 1873.
Henry Schnaer.....	Germany.....	Baker.....	34	Chronic Dysentery.....	" 10, "
Herman Titel.....	Germany.....	Weaver.....	50	Phthisis Pulmonalis.....	" 10, "
Jean Donneys.....	France.....	Butcher.....	39	Cirrhosis of Liver.....	" 10, "
Zachary Williams.....	Missouri.....	Laborer.....	19	Pneumonia.....	" 10, "
Elizabeth Griffin.....	Ireland.....	.....	25	Pneumonia.....	" 11, "
Henri Frick.....	Louisiana.....	Unknown.....	62	Pneumonia.....	" 11, "
Andrew J. Mullen.....	Louisiana.....	Driver.....	24	Phthisis Pulmonalis.....	" 12, "
Charlotte Joseph.....	Louisiana.....	.....	50	Morbus Seniles.....	" 12, "
Joseph Decker.....	Germany.....	Watchman.....	35	Chronic Dysentery.....	" 12, "
Cornelius Sullivan.....	Ireland.....	Laborer.....	32	Chronic Diarrhœa.....	" 13, "
Heinrich Ploghoft.....	Germany.....	Seaman.....	18	Phthisis Pulmonalis.....	" 13, "
Mary Farmer.....	Ireland.....	.....	35	Secondary Syphilis.....	" 13, "
Charles Hicks.....	Kentucky.....	Laborer.....	22	Tuberculosis.....	" 13, "
Vina Morris.....	Kentucky.....	.....	26	Heart Disease.....	" 13, "
Thomas Lynch.....	Ireland.....	Clerk.....	28	Phthisis Pulmonalis.....	" 14, "
Patrick Donnegan.....	Ireland.....	Laborer.....	38	Chronic Dysentery.....	" 14, "
Joseph Rigual.....	West Indies.....	Cigar Maker.....	52	Phthisis Pulmonalis.....	" 15, "
Joseph Gigout.....	France.....	Gardener.....	49	Phthisis Pulmonalis.....	" 15, "
James Williams.....	Virginia.....	Laborer.....	35	Paralysis.....	" 16, "
Louis Conway.....	Louisiana.....	Cook.....	32	Tuberculosis.....	" 16, "
James Taylor.....	Louisiana.....	Laborer.....	19	Chronic Diarrhœa.....	" 16, "
James Donovan.....	Ireland.....	Carpenter.....	45	Chronic Bronchitis.....	" 16, "
Leon Putenier.....	France.....	Cook.....	20	Typhoid Fever.....	" 17, "
Michael Carroll.....	Ireland.....	Laborer.....	32	Pneumonia.....	" 18, "
Gregorie Popovitch.....	Austria.....	Laborer.....	80	Pernicious Fever.....	" 18, "
Arthur Dows.....	Unknown.....	Laborer.....	35	Heart Disease.....	" 18, "
George Johnson.....	Kentucky.....	Laborer.....	16	Bronchitis.....	" 18, "
Matilda Armstrong.....	Kentucky.....	.....	38	Pneumonia.....	" 18, "
John Connolly.....	Ireland.....	Hostler.....	67	Gastritis.....	" 19, "
Andrew Bravo.....	Mexico.....	Cigar maker.....	31	Chronic Gastritis.....	" 19, "
Robert Lee.....	Missouri.....	Laborer.....	21	Congestive Chill.....	" 19, "
Edward Long.....	Louisiana.....	Laborer.....	59	Tuberculosis.....	" 19, "
Catharine Otis.....	England.....	Laborer.....	34	Phthisis Pulmonalis.....	" 19, "
Eugène Marissou.....	France.....	Gardener.....	62	Hypertrophy of Heart.....	" 20, "
Alexander Thomas.....	Alabama.....	Boatman.....	21	Hemorrhage of Stomach.....	" 20, "

TABLE—Continued.

# OBSTETRICAL RECORD.

Number of Women delivered in Ward 39 for the year 1873.....		87
Children born alive at time.....	{ Males.....	35
	{ Females.....	45
Still-born.....	{ Males.....	3
	{ Females.....	3
Children born alive prematurely.....	{ Males.....	1
	{ Females.....	1—88

## PRESENTATIONS AND POSITIONS.

Vertex, 1st position.....	71	Breech, 1st position.....	1
“ 2d “.....	6	“ 2d “.....	1
“ 3d “.....	3	Trunk, 1st “ right shoulder	1
“ 4th “.....	2	Unknown.....	3—88

## DURATION OF LABOR.

Average duration.....	Six hours and a quarter
Shortest time.....	One hour
Longest time.....	Five days.

## WEIGHT OF INFANTS.

Average weight—males.....	7½	Smallest weight—females.....	3
“ “ —females.....	6¾	Largest weight—male.....	10

## AVERAGE NUMBER OF PULSATIONS FETAL HEART IN UTERO.

Males 114 to 138 per minute	Females 140 to 160 per minute.
-----------------------------	--------------------------------

## LENGTH OF UMBILICAL CORD.

Average length 20 inches.
Shortest length 8 inches.
Greatest length 37 inches.

## WEIGHT OF PLACENTA.

Average one pound.
Largest 42 ounces.
Smallest 8 ounces.

## PATHOLOGICAL RECORD.

Post partem hemorrhage.....	10	Blunt Hook.....	1
Accidental “.....	1	Twins.....	1
Prolapsus of Cord.....	1	Puerperal.....	9
Cord around neck.....	19	Dysentery.....	1
Podalic version.....	1	No complications.....	42
Forceps.....	2		— 88

## DEATHS.

Mothers, Puerperal fever.....	5	Infants, male.....	4
“ Dysentery.....	1-6	“ female.....	4— 8

JAMES JONES, JR., M. D.,

*In charge of Obstetrical Ward.*

GEO. A. B. HAYS, *Student.*

Number of births in Ward 39.....	88
Number of births in Ward 34.....	12—100
